

# MEDIA CLIPS & QUESTIONS

## Teaching Resources

There are two age appropriate media clips to show within each session, these can be found both in the Presentations and also in the stand alone Media Clips sections for each year group.

When showing them, the following questions might be useful:

- 1. What were the risks in this clip?**
- 2. What were the consequences?**
- 3. What else could have happened?**

### **Objective**

This activity is designed to to provoke discussion, increase awareness and support young people in making informed choices and to decrease risk. It is important to highlight that we believe having an alcohol-free childhood is the best choice for a young person.
